COLLECTING, RESTORING AND DISPLAYING HISTORIC FAIRGROUND ITEMS FOR THE NATION

The aim of the Fairground Heritage Trust, established 30 years ago, is to preserve historic fairground equipment, its painted imagery and memorabilia for future generations in the hope of fostering understanding of, and support for, a genuinely national institution. As a vital ingredient in the genesis of leisure in this country, the Fairground Heritage Trust believes that the fairground has played an important role in an educational and social aspect, in shaping today's society, possibly more so than other types of popular entertainment.
